

THE WEHRLE STOVE FOUNDRY IS TO BECOME STILL LARGER.

A Big Addition to Plant Has Just Been Started.

Shops North of the Railway Are To be Modernized.

Company Now Has Payroll of \$65,000 a Month
And is Shipping 1000 Stoves Daily--New
Shops Mean Increase in Force of Men
Now Numbering About 1400.

The Wehrle Stove company, which already has the largest stove foundry in the world, has just commenced another big addition to its mammoth plant in West Newark.

This means the expenditure of perhaps \$100,000 and a large increase to the present force of workmen now numbering nearly 1400.

For some time there has been much speculation as to what the Wehrle company intended to do with that part of the foundry which was destroyed by fire several months ago. Mr. Wm. W. Wehrle settled the matter today by announcing to the Advocate that the burned district would be rebuilt and that a building 60x300 feet, three stories in height, would be erected on the north side of the railroad, part of the building to stand on the ground that was swept by the fire. Not only will this big structure be built for mounting and storage purposes but the entire old plant will be modernized so as to bring its standard up to that of the immense new foundry south of the railway tracks. The company is now staking off the new building and on Monday an extra large force of men will be put to work so as to hurry the construction.

The erection of this new building and the further improvements that are contemplated at the shops will give the Wehrle company practically two big, complete plants.

This foundry has just had installed at a cost of \$4,000 a dust separator plant in a building 45x96 feet, two stories. It takes the dust of the entire foundry.

The new pressed brick office, two stories, 40x30 feet, is now nearing completion. Plasterer Abbott is now doing his work on the office and when the

plastering is finished the carpenters will finish the building in oak. One of the features of the office building is a vault 10x15 feet, two stories in height, which will be used for the company's records, files and so forth. The office will be heated by a hot water system. On the new plant south of the railroad the company has expended about a quarter of a million dollars.

Last month the company's payroll was \$45,000 and of course this is growing larger as the force of men is increased. The company is now manufacturing 500 stoves a day, and at the present time is shipping 1000, or about 15 car loads daily. The shipments will increase now and soon the company will be sending out of the city from 20 to 25 car loads of stoves a day, and the heavy shipments will continue for about three months.

Last summer when the other stove foundries of the country were closed, the Wehrle company was sending out of town two or three car loads of stoves a day. The plant has not been shut down except on holidays for the past seven years.

The city of Newark may count itself fortunate in having such a man as William W. Wehrle as one of its citizens.

The activity of the Wehrle foundry, the doubling of the capacity of the Hevey glass factory, the prosperity of the immense Everett glass plant, the increase in force of the Jewett Car works and the rush of business at the other industries of the city, not forgetting that the city owes to the three interurban lines which are daily bringing people into Newark, are making Newark boom as she never did before.

Traveling men admit that Newark is the best town in Ohio and everybody is ready to acknowledge that Ohio is the best state in the union.

FIRE

In Hotel Results in Death of Four People Today.

St. Joseph, Mo., Oct. 7.—In a fire at the Tracy House in the stockyards district, discovered at 3:30 o'clock this morning, four persons were suffocated and two others perhaps fatally burned. The dead:

Lefe Fewa, 50, spectator, unmarried.
C. F. Norton, 35, employed at stockyards, unmarried.

Mrs. Anna Weston, 34, Gentry county, Mo.

An unknown man.
Injured: Gilbert Weston, miner; son of Mrs. Weston, badly burned about head, may die. Wm. Summers, yardman, burned about body, serious.

Twenty guests were in the house at the time. The origin of the fire is unknown. The loss is small.

LYONS

Tried to Bribe Detectives Who Were on the Way to Prison With Him in Custody.

Buffalo, Oct. 7.—Ned Lyons, known throughout the United States as one of the most notorious crooks and bank robbers who ever successfully operated, and who it is claimed by the police has committed bank robberies which aggregated \$10,000,000, is locked up here. Police detectives recognized Lyons on Main street last night. "Hello, Ned," they said simultaneously. Lyons was prepared and he replied that he had not been correctly addressed. His name, he said, was Cummins. On the way to headquarters, Lyons acknowledged his identity and took from his pocket \$1,500 and offered it to the detectives if he would let him go.

Tokyo, Oct. 7.—It is reported here today that the Japanese land batteries damaged four Russian warships in the harbor of Port Arthur. One of the vessels was completely wrecked. The name of none of the ships is given.

EXPRESS

On Pan Handle Road is Wrecked This Morning--One Killed.

Pittsburg, Oct. 7.—The Wheeling express on the Panhandle road, on its way to Pittsburg, was wrecked at Hanlin station, just beyond Burgettstown, shortly before 9 o'clock this morning. A special train left McDonald in response to a call, carrying several physicians. John Rowe, fireman, was killed and a number of passengers injured, but none seriously.

TURKS

Slaughtering Christians, Revolutionists Are Plundering.

Berlin, Oct. 7.—(Bulletin)—The Tagblatt reports a new outbreak of the Macedonian disturbances. The revolutionists are plundering and Turkish troops in retaliation, are slaughtering innocent Christians and outraging women.

ROBBER

Stepped Into Savings Bank and Compelled Cashier to Hand Over \$1700 Cash.

Council Bluffs, Ia., Oct. 7.—A robber walked into a savings bank at Treynor and compelled the assistant cashier, Miss Frances Flood, to give up \$1,700. Then the robber drove the woman, who was alone in the bank, into the big vault and locked her in. Customers coming into the bank half an hour later heard the woman's screams and released her from the vault.

The gold production of the entire Alaskan district for the present year is estimated at \$25,000,000.

MILES TALKS AT BOSTON TO PEACE CONGRESS

Upon Menace of Armies and Navies.

Resolutions Adopted Calling Upon Nations of World for a Reduction of Their Armaments.

Boston, Oct. 7.—The International Peace congress called for the arrest and subsequent reduction of naval and military armaments when the resolutions were adopted expressing the opinion that the first task which the world's new convention, suggested by President Roosevelt, should take up was the gradual disarmament of the powers. The thanks of the congress were extended to President Roosevelt for his pledge to take the first steps towards a convocation of a new international peace convocation.

General Nelson A. Miles was the principal speaker at a congress meeting held in Park Street church to consider the question of the reduction of armaments and the menace of great armies and navies. Congressman Samuel W. McCall presided, and several prominent men voiced their opinions. General Miles said in part:

"The settlement of international controversies by the dread arbitration of war involves the destruction of tens of thousands and sometimes hundreds of thousands of the young men of both countries. Could any rule, code or method be more void of reason and justice?"

"The great majority of wars in the world's history have been occasioned by the selfish ambition of some usurper or cruel tyrant, the intrigues of unscrupulous men or the avarice and greed of a people. The deadly war now being waged between two powerful nations in the Orient can not benefit either country, but must impoverish both for the next hundred years. It will not benefit mankind, but must retard human progress."

"I have no sympathy for that sentiment that would compromise and arbitrate with powerful nations and at the same time overrun, intimidate, subjugate or oppress the people of defenseless countries."

"It must be apparent to all thoughtful, patriotic men that the intelligent world will not long endure the burden of great standing armies and enormously expensive navies. The question as to what millions of men would do unemployed in military service is answered by the fact that they would become producers instead of consumers. In the promotion of peaceful arts and industries our people have won a place in the world's confidence and respect, in which we all hold just pride. In the splendid activities there is no sound of warring cannon and dying men."

OVER THE 'PHONE

The Newspaper Man "Cussed" and He Was Arrested by the Pittsburg Police.

Pittsburg, Oct. 7.—James Anderson, a writer on the East End Herald, was arrested last evening for using profane language while talking over a telephone.

He explained to Superintendent of Police Wallace that he had learned that his wife was sick at Rochester, Pa. He called up the Rochester office. Some one on the telephone line began to chaff him. He became angry and began cursing at the unknown person at the other end of the wire. A woman in the drug store where he was talking overheard him and had him arrested. He was released on his own recognizance.

"MODEL" SALOON

Will be Opened in West Virginia to Oppose Another.

Cumberland, Md., Oct. 7.—The Davis Coal and Coke company is erecting a building at the mining town of Henry, to be used by Howard Clark as a saloon. It will be leased to Clark. It is to be run on the model plan, and Clark agrees not to open it until after 5 o'clock in the morning, or after the men have all gone to work. The Bishop Potter model saloon in New York suggested it.

A saloon, operated by the coal companies which will be run without restrictions, is to be opened across the river, and the Clark saloon will be established to diminish its influence.

The Davis Coal and Coke company, which was founded by Henry G. Davis, is now controlled by the Wabash interests.

BIG AUTO FELL OVER BANK IN FRONT OF TRAIN

Three are Dead and Six Badly Injured.

One of the Victims Who is Fatally Injured Refuses to Tell Her Home Address.

Miss Emma Smith, address refused, will die.

Thos. Murphy, of Riverside.

FOR LONG WAR HE TELLS JAPS TO BE PREPARED

Count Okuma Thinks That Japan Will Win.

Places Cost of Two Years War at One Billion Dollars--Day's News from Far East.

Kuropatkin Reported ill. Vladivostok, Oct. 7.—It is reported here today that General Kuropatkin is very ill and that since the defeat of his forces at Liao Yang he has been unable to personally direct operations.

Czar is Terrified. Berlin, Oct. 7.—News from St. Petersburg confirms reports that the Czar is in a state of terror as a result of the plots against his life, which the police claim to have discovered recently. His majesty has formed a new body guard of 500 secret service men which surround him constantly.

Second Manchurian Army. St. Petersburg, Oct. 7.—General Gripenberg, who will command the second Manchurian army, will leave St. Petersburg this evening for Vilna. The general refuses to talk. Your correspondent had an interview with Col. Novitsky, Gripenberg's secretary. He said the second army would certainly be concentrated in Manchuria in March.

Praised the Jews. St. Petersburg, Oct. 7.—A dispatch from Theodosia, Russian Crimea, today says the governor recently went to the synagogue and addressed the Jews in most conciliatory manner. He eulogized the bravery of the Jews in the Russian army "who die and shed blood just as pure as that of the Russians." He mentioned several notable cases of Jewish bravery in the present war, adding: "The Czar is much impressed by these."

Predicts a Long War. Tokyo, Oct. 7.—Count Okuma, in an address before the United Clearing Houses of Tokyo, and speaking as the leader of the Progressive party, warned the people to prepare for a long war, the date of the termination of which it was now impossible to foretell. He predicted that the cost to Japan for a two years' war, including the loans which had been already placed and the expenses consequent upon the war at its termination would total \$1,000,000,000, which would make the per capita share amount to \$20.

Despite her weaknesses, Count Okuma said Russia possessed immense resources and had tremendous advantages in the size of her population and the greatness of her wealth, and it would be necessary for the Japanese to make heavy sacrifices in order to attain success. He predicted that the war would cost Russia from one and a half to two billion dollars, and said it would be impossible to raise loans or to increase the taxes in Russia, because the limit had been reached.

Count Okuma said that corruption appeared to pervade the military, political and financial departments of the Russian government, and that this corruption had almost reached a climax which threatened a revolution.

The count predicted that it would be necessary for the Japanese government to borrow \$25,000,000 next year. He urged the nation to carefully husband its strength and resources, and expressed the full confidence in the ultimate victory of Japanese arms.

CHAS. BASORE SENT TO JAIL ACCUSED OF HOY'S MURDER.

PAYS PENALTY IN DEATH CHAIR FOR A MURDER

"Dutch" Fisher Electro- cuted This Morning.

His Identity Remains a Secret--Made Merry to the Last--Story of His Crime.

Columbus, O., Oct. 7.—"Dutch" Fisher, alias Albert Miller, was strapped into the electric chair at 12:04 and was pronounced dead at 12:12 a. m. He died without revealing his true name, saying it would bring nothing but disgrace upon his family. Up to the moment of his death his conduct was more in keeping with a great holiday, rather than that of a man who was the central figure of impending death. He sang and made merry to the last. He died in the Catholic faith, saying he had been brought up in it and would continue in it until the end.

Tells Story of Crime. Fisher made a statement describing the killing of William Marshall. He said he met Louis Seams and Walter Crosby in a saloon in Toledo on the evening of Jan. 10, 1904; that he and Seams held up and robbed a man of the name of Schaffer on Summit street of that city, but he afterwards became frightened and was about to leave the city. He stated Seams said he had a good thing on hand and persuaded him to remain; it was the robbing of a saloon keeper. On the night of the 21st the three started for the saloon, but Crosby backed out and went home. Fisher and Seams went into the place and ordered the owner and Marshall, the barkeeper, to hold up their hands. Marshall did so, but the saloon keeper showed fight and ran. Fisher after him, but Fisher halted him in a back room. While there several shots were fired in the saloon proper, and Fisher and the saloon keeper went back, after the latter had been robbed by Fisher of everything he had on him.

Fisher said in the statement that he saw Marshall with two revolvers after Seams, and that then it was he (Fisher) fired two shots at Marshall, who fell. Seams and Fisher then robbed the cash register and left.

Plot To Liberate 526 Political Prisoners in Russia by Poisoning Their Guards.

Berlin, Oct. 7.—Word was received here today of an elaborate effort to liberate 526 political prisoners from dungeons of Peter Paul fortress in St. Petersburg. The plotters endeavored to poison the soup which is served to all the guards at sunrise every morning. The plot was discovered in time to be frustrated.

Campaign

Opened in Louisville by John Sharp Williams--A Big Crowd Was Present.

Louisville, Ky., Oct. 7.—Congressman John Sharp Williams opened the campaign in Louisville for the Democrats at a meeting which drew a large crowd to the Seventh Street armory, the place being filled to the doors. The meeting was preceded by a long parade of the Democratic clubs of the city carrying Parker banners and Japanese lanterns. Mr. Williams' speech was largely pitched in a key of intense sarcasm, dealing mainly with the record of the Roosevelt administration and the views of the president as set forth in the latter's letter of acceptance.

Lady Carzon's Condition.

London, Oct. 7.—The following bulletin on Lady Carzon's condition was issued from Walmer Castle this morning:

"Lady Carzon's condition has been one causing renewed anxiety during the past week. The London doctors still remain in attendance and the patient is not yet out of danger, but slow progress is being made. If no further complications ensue there are good hopes of ultimate recovery. Lady Carzon passed a quiet night. Her general condition remains about the same."

Miners Entombed

Berlin, Oct. 7.—A coal mine collapsed at Gerlebock, Anhalt today and 15 miners were entombed.

Shrider and Lloyd are Dis- charged by Justice

When the Hearing Was Called at Thornville, Ohio, Today.

Attorney for Prosecution Requested Their Dis-
charge--Basore Waived Examination--Big
Crowd Present--An Advocate Rep-
resentative at the Hearing.

(By Joe Miller.)
Thornville, O., Oct. 7.—The preliminary hearing of John Lloyd, Peter Shrider and Charles Basore for the murder last January of Marcus W. Hoy, two Zanesville & Western railroad agent at Thornville, was called before Squire H. H. Edmunds this morning.

The case has attracted widespread attention throughout Perry and adjoining counties, and the consequence was the streets of this picturesque little village were crowded with citizens who were anxious to hear the preliminary trial.

The case was supposed to have been called in Squire Edmunds' office, but it was soon found that this place was entirely too small, so the citizens of Thornville and Perry county who had come in to hear the trial took up a collection and rented the town hall, but this was totally inadequate to accommodate the crowds.

Never in the history of Thornville has there been such a scene as was witnessed this morning. Lines of vehicles were hitched along the streets and outskirts of the village and it is safe to say 700 people attempted to gain entrance to the town hall where Squire Edmunds took his seat and called the court to order.

The crowd had become impatient and an unavoidable delay in the proceedings which was occasioned by the consultation of the attorneys for the defense and prosecution, the trial was not called until 11:20 o'clock today.

A rush fell over the crowd as Attorney Thomas H. Dolson of Lancaster, representing the prosecution arose and said:

"Your Honor, on behalf of the State, I wish to say that in the cases against Peter Shrider and John Lloyd the State does not wish to prosecute and would ask that Your Honor would release the prisoners."

Squire Edmunds then said that in accordance with the statement of the representative of the State, Peter Shrider and John Lloyd were released.

The men were in the court and received the congratulations of many friends who were standing near them.

Mr. Dolson further stated that there was evidence enough against Charles Basore that in his opinion he should be bound over to the grand jury which meets in New Lexington on the 14th of next month.

Basore waived examination and was bound over to the grand jury.

Squire Edmunds then said that in his opinion the offense of which Basore was charged was not bailable.

Prosecuting Attorney Dolson stated that he had been appointed to try the case, but he thought if a bond were fixed it should be high enough to practically deprive the defendant of his liberty, and should not be less than \$25,000. The court said that he was of the opinion he had formerly expressed, that the offense was not bailable, and he then committed the prisoner to the hands of Constable Samuel Dunnwoody, who left this afternoon for New Lexington, 15 miles distant, with the prisoner handcuffed to him.

The prisoner is a man 45 years old, married, and has one child ten years old, a stepdaughter 18 years old and a stepson 15 years old. His wife was until recently a cook at the hotel in Thornville of which he was formerly proprietor, but is at present unemployed. The two have been separated for some time by mutual agreement.

The prisoner has been living with his father, Mrs. Elizabeth Basore. His brother was arrested two years ago at Salem for burglary.

The man who worked up the case against Basore is C. C. Friend, a Pittsburg detective, employed by the P. C. & St. L. railway company, and is a second cousin of the wife of Basore, the man who is accused of Squire H. H. Hoy's murder.

The defendants since their arrest on last Monday have been in custody of officers deputized to keep them under constant surveillance, but were not put under any bond at the hearing.

Mrs. Hoy, wife of the murdered station agent, was in the court this morning.

ing, and sat beside Attorney Dolson. Her demeanor was calm as she took notice of the proceedings. The little woman received the sympathetic glances of the entire crowd.

The Advocate man took the D. & O. train this morning for Thornport and from there by bus to Thornville. He was the only representative of a Newark paper at the hearing. The Zanesville Times Recorder was also represented, these being the only newspapers represented at the hearing.

P. B. Smythe of Newark, and T. R. Price of New Lexington, together represented the defendants. Miss Mary McGarry, stenographer for Smythe & Smythe, took the report of the hearing.

The case will be taken before Mr. J. E. Powell, prosecuting attorney of Perry county, who will have charge of the case before the grand jury.

GERMAN DAY

All Parts of the United States Represented at St. Louis--Von Sternberg Was Present.

St. Louis, Oct. 7.—One of the largest demonstrations that has characterized the world's fair and one that concentrated possibly the largest crowd on the wide and spacious plaza of St. Louis, attracting thousands from the various portions of the extensive exposition grounds, was the celebration of German day. Not only almost the entire German population of St. Louis in attendance, but the German citizens from all parts of the United States augmented the vast assemblage. The principal visitor of the occasion was Baron Speck Von Sternberg, German ambassador to America, who bore a greeting which had been received by cable from Emperor William conveying his imperial congratulations to the citizens of America in the national celebration of German day.

MONT PELEE

Again Throws Up Tremendous Balls of Fire--The Volcano is Again in Action.

Kingstown, St. Vincent, Oct. 7.—The captain of the British steamer Sibun, which has arrived here, reports that when the steamer passed the island of Martinique on Sept. 29 Mont Pelee was in full eruption. The spectacle was seen by those on board the Sibun at 2 o'clock in the morning of the day mentioned, the volcano emitting stupendous black clouds and balls of fire. This accounts for the dust clouds reported to have been seen throughout the Windward islands.

PEACE TREATY

Uruguayan Government Will Make No Official Declaration of the Compact Just Made.

Buenos Ayres, Oct. 7.—The Uruguayan government will make no official declaration of the second treaty of peace with the revolutionists, which was signed by dissentient rebels, regarding it as part of the compact previously signed by Basilio Munoz.

FUNERAL

Of Postmaster General H. C. Payne Was Attended by High Officials This Morning.

Washington, Oct. 7.—The funeral of Postmaster General Payne was held at 11 o'clock this morning at St. John's church. President Roosevelt, Admiral Dewey, Gen. Chaffee, twelve rear admirals, several major generals and members of the diplomatic corps were present. Every seat in the church was occupied. Rev. Colton Smith lead the services.

Moore's Stoves Always Please

THE ORIGINAL MOORE'S AIR-TIGHT HEATER

A BEAUTIFUL PARLOR STOVE

A HEAVY fire-pot and large, radiating dome are enclosed by an open, ornamental screen or casing. The air entering this casing through the openings at the bottom and sides, is warmed by contact with the fire-pot and dome and discharged through the top. This movement of the air produces a gentle, but constant circulation in the rooms and maintains an even and agreeable temperature throughout.

OBITUARY

John Emmit Ditter was born near Irville, Muskingum county, Ohio, on March 5, 1829, moved to Brownsville, Ohio, in the year of '52; was united in marriage with Miss Ella Dumm July 21, 1852; joined the Methodist protestant church in the year of 1853, but was not converted until about 16 years ago. He died September 30, 1904, aged 75 years, 6 months and 26 days.

To said union were born 11 children, six sons and five daughters, and under the training of a loving, industrious father and mother, the home became a pleasant one, and in it all the children grew to be men and women, respected and loved by all who knew them, and for some years have been filling their respective places in the business world, one here and another there, now and then turning their faces to the old homestead. They remained an unbroken family until July 14, 1902, when Oren Lee, the youngest son and brother, under the Providence of a kind Heavenly Father, took his leave of this little band, and all that is earthly to the spirit land.

All the rest of the children, grandchildren, wife and mother, and a host of friends are left to mourn their loss, but our loss is his eternal gain. How he longed to be free from the sufferings of this earthly life, and we believe the dear gentle Saviour heard his prayers, and granted the desire of his heart, then so peacefully he fell asleep in Jesus, in whom there is no death. The writer preached the funeral from Psalm 73:26: "My flesh and my heart faileth; but God is the strength of my heart, and my position forever." There was a large congregation of weeping relatives and friends.

The family wishes to express its thanks to the many kind friends for their love and help during the sickness of the husband and father. These will not soon be forgotten.

D. C. WEES, Pastor.

JOHN MASON. After an illness of all summer's duration, John Mason, 79, of Duncan's Falls, formerly a prominent attorney of Zanesville, died at his home yesterday. Acute stomach trouble was the cause of his demise.

Funeral services will be conducted at the family home at 11 o'clock Saturday morning by Rev. A. L. Pottery.

MRS. T. H. COOLEY. Pataskala, O., Oct. 7.—Mrs. T. H. Cooley who died at the home of her daughter, Mrs. W. H. Montgomery, northeast of Pataskala, yesterday, was buried this morning at 10 o'clock. The cause of Mrs. Cooley's death was peritonitis.

CARD OF THANKS. We wish to thank the Pathfinders, the Second Presbyterian church, the King's Daughters, the Pratt & Montgomery employees, and all the neighbors and friends who so kindly assisted during the sickness and death of the father and husband, and for the beautiful floral offerings. Mrs. Siena Mol, Miss Helen Mol, Mr. Wm. Hegs.

St. Louis, Mo., Oct. 7.—Samuel H. Leathe, a retired real estate man reputed to be worth \$1,000,000, and who is more than 60 years old was sued for divorce late yesterday afternoon. The wife, who is a young woman, asks alimony. They were married January 7.

Mrs. Leathe charges Leathe with cursing and abusing her with calling her a "liar," with slapping her in the face, with notifying merchants that he would not be responsible for bills contracted by her, with threatening to "mash her up," and with declaring that if "she did not get out he would throw her out" of the house.

She also alleges that he has refused properly to provide for her.

REGISTRATION DAYS

Every voter in the city of Newark is required to register this year in order to enable him to cast his ballot this fall. Everybody who is by reason of age, legal residence and other qualification of citizenship, eligible to vote for President, Tuesday, November 8, 1904, MUST REGISTER anew this year, regardless of any and all previous registrations.

The days for registration are as follows:

THURSDAY, OCT. 13.
THURSDAY, OCT. 20.
FRIDAY, OCT. 28.
SATURDAY, OCT. 29.

Judge Parker's letter was only half as long as President Roosevelt's, but it contained twice as much and will be remembered twice as long.

Governor Herrick is meeting with so much censure that he must be in doubt as to whether the Warner opening was a forerunner of his defeat or Roosevelt's.

Mr. Roosevelt regards the constitution as an annoyance. He could get along a great deal better if the old fogies of the Revolutionary period had not bothered him with a written law.

There are some people who would like to know what Senator Dick and Governor Herrick would get out of President Roosevelt's election. Sad thoughts arise about the chicken and the axe.

Republicans are pronouncing eulogies over the late Senator Hoar, but they forget to say that every fundamental American principle dear to the

heart of the Massachusetts statesman is represented by Judge Parker and composed by President Roosevelt in the present campaign.

Desperate Effort to Save Smyser from Running Behind His Ticket

The Coshocton Age is in great trouble over the disaffection among Republicans of that county against Smyser, the Age's candidate for Congress. It has been a well known fact from the day that the little bunch of losses put Smyser in nomination that many Republicans in Coshocton and a goodly number from other parts of the district, including Licking, would not vote for him. In view of this fact the Coshocton Age feels the necessity of making a desperate effort to get Democratic votes for Smyser to make up for the large number of Republicans he is found to lose. And this is why the Age resorts to a column and a half article in an effort to misrepresent the Democratic Congressional convention which met in that enterprising and hospitable little city. By the falsehoods the Age resorts to in its article that paper bores to mislead Democratic voters. But its effort only meets with ridicule, and brings out the fact of the great difference in the character of the harmonious convention that nominated Hon. J. E. Hurst and the factional Republican convention that put up Smyser for the voters of the district to slaughter. Two bosses practically controlled the alleged Republican convention. One of these was alert Mr. McCoy, of the Coshocton Age, and the other was "Judge" Sowers of Tuscarawas. These two single individuals barred out every Republican candidate except their man Smyser, and forced his nomination upon the Republicans of the district. It was a clear case of a few shrewd bosses of the minority faction of Forakerites who had secretly gotten control, riding rough shod over the majority, who are well known as the Hanna faction.

It is no wonder, then, that the Coshocton Age finds such a large proportion of Republicans in that county who refuse to vote for Smyser. The Hanna following in Coshocton county largely outnumber the Forakerites. The Advocate has repeatedly stated that Smyser will run behind his ticket in Licking county, and it is very evident that he will suffer the same fate in Coshocton county.

President Roosevelt declared in his letter of acceptance that there was "no common law in this country." This, too, as a bit of information for Judge Parker. American lawyers who have been studying and practicing under the common law during all their professional career will not vote for Roosevelt on the ground that he knows anything about law. They will have to find some other ground on which to support him.

When Roosevelt succeeded McKinley there was a surplus in the treasury amounting to near \$100,000,000. In 1903 it had dropped to \$54,000,000. In 1904, at the end of the fiscal year, June 30, there was a deficit of \$11,000,000. The deficit for the fiscal year 1905 will be something enormous. While the taxes intended to produce government revenue are higher than ever before the people may as well prepare for an increase if Roosevelt is elected. He would accept his election as an approval of his extravagance.

Colonel James Kilbourne is one of the largest manufacturers in Ohio. His address as chairman of the Democratic opening at Lima proves where he stands on the subject of tariff revision. Manufacturers who do not receive special favors from the government at the expense of the consumers of their product, all accord with Col. Kilbourne on a tariff sufficiently high to amply make up the difference in the cost of labor, as well as adequate revenue to support the government. Any tariff more excessive than that is simply in the interest of trusts.

"Already the national government has become centralized beyond any point contemplated or imagined by the founders of the constitution. How tremendously all this has added to the power of the President! It has developed from year to year until it almost equals that of many monarchs. While the growth of our country and the magnitude of interstate interests may seem to furnish a plausible reason for this centralization of power, yet these same facts afford the most potent reason why the executive should not be permitted to encroach upon the other departments of the

government, and assume legislative, or other powers, not expressly conferred by the constitution."—From Judge Parker's Letter of Acceptance.

Will some friendly reader answer the following questions:

1. How many times did Roosevelt mention the Constitution in his speech and letter of acceptance?
2. In what connection did Senator Fairbanks mention the Constitution in his letter of acceptance?
3. What Republican orator has referred to the Constitution of the United States in this campaign and in what connection?
4. Has any Republican from Roosevelt down to Smyser (and that's getting pretty well down) made mention of the Declaration of Independence in this campaign?

National and State Economy.

Judge Parker's letter of acceptance presents a remarkably strong indictment against the Republican policy of recent years, which has enormously increased the expenses of government and brought the total disbursements to a figure never dreamed of by leaders of either party ten years ago. National economy is undoubtedly one of the most important issues of the present campaign and finds an able and earnest advocate in the Democratic nominee for president.

In Ohio, however, the same issue appears in state politics and quite as emphatically as it does in national. The fiscal record of the Republican party of Ohio in recent years would be ludicrous if it did not involve such great loss to the taxpayers and tell such a pitiable story of extravagance and corruption. Still, it is hard to escape the ludicrous side. It seems only a few days ago, but it is in reality several years, since the people of Ohio were talking about celebrating the 100th anniversary of their statehood with a great industrial exhibition. The scheme took practical form, and Toledo was designated as the exposition city. The states of Michigan and Minnesota were invited to join the enterprise and agreed to do so. A million dollars for the centennial was pledged in Toledo alone and the national government stood ready to give a large sum in addition. Colonel James Kilbourne, one of the best known Democrats in the state, was appointed president of the exposition, and Daniel J. Ryan, one of the best known Republicans, director general. Then came the question of state aid.

There was \$1,000,000 lying in the state treasury and an apparent certainty of revenues greatly in excess of state expenses for a long time to come. Governor Nash was ambitious to go out of office with the surplus intact and bitterly opposed an appropriation for the proposed centennial. To make a long story short, he was successful and the whole plan was killed in the legislature on the score of "economy."

Where is the \$1,000,000 surplus now? There have been only Republican legislatures since Governor Nash saved the surplus and prevented the great state of Ohio from fully celebrating the centennial anniversary of its existence as an American commonwealth. One would suppose that of

course the money saved by this "economy" and guarded by Republicans would be still in the treasury, but the people look for it in vain. Not a dollar of it can be found with a microscope. One Republican legislature has frittered away a sum far greater than was required for the exposition, and the people never had the exposition. Not only has the surplus been dissipated, but the Republicans have mortgaged the future and set a precedent for extravagance undreamed of before the Republican party of this state became drunk from an overdose of power.

Question: If the people of Ohio could not afford to have a centennial exposition when they had a million dollars laid by, how can they afford to support a permanent Republican caucus after the show has emptied the treasury?

Reed Smoot, the Mormon polygamous Senator, is stumping Utah for Roosevelt. It is understood at Washington that the President some time ago made an agreement with leading Senators whereby Smoot was to be left in the Senate upon condition that this session of Brigham Young should control for the Republican party the Mormon vote of the mountain states. It is well known that Cortelyou, as the agent of Roosevelt, is a party to the deal. And this is the way the Latter Day Republican leaders and the Latter Day Saints of the Mormon Church have come together in behalf of that institution that the original Republican party denounced as a twirl of barbarism.

Indianapolis, Ind., Oct. 7.—W. F. La Follette, of Mitchell, S. D., a brother of Gov. La Follette, of Wisconsin, and himself a Republican writes a long letter to H. H. Smith of South Dakota, who is campaigning for the Democrats in this state, saying that 45 per cent of La Follette Republicans will vote for Judge Parker for President.

"I have been all through Wisconsin," he writes, "and I find the anti-Roosevelt feeling intense. People are tired of dictation from Washington and are resolved to get rid of it. The Republican national machine will be taught a lesson in Wisconsin. I believe Gov. La Follette will be re-elected by a remarkable majority, as the great bulk of the independents are with him in his fight, and all but the Federal office holders and Spooner henchmen."

MR. GOULD WHO DENIES RUMOR OF ERIE PURCHASE.

Long Island to be Partly Equipped with Electricity—Service to Cleveland. Local Personal Items.

New York, Oct. 7.—At the office of George Gould the rumors which have been current that the Goulds are contemplating taking control of Erie again are denied. Mr. Gould, accompanied by his wife and two sons, started for the West over the Erie yesterday.

While the trip is ostensibly for the purpose of inspecting the Gould properties, men in the financial world who watch the course of events and speculate accordingly thought it significant that Mr. Gould, in beginning his journey, travels over the Erie.

The disposition was to associate this fact with the activity that Erie has shown in the stock market. They do not believe that Mr. Gould is disposed to delay getting his system into New York for as long a time as has been frequently stated.

Equipped With Electricity. New York, Oct. 7.—About 100 miles of the Long Island railroad system will be equipped with electricity. It is stated, and is ready for operation with that power early next spring.

Ultimately it will be possible for a person to take a train at the Pennsylvania station to be built in the heart of Manhattan, and ride without change of cars or motive power to Manhattan Beach, Rockaway Beach, Far Rockaway, Arverne or intermediate points. When this big undertaking is in working order the main passenger station of the Long Island railroad at Long Island City will be practically merely a way station.

For several months the Long Island railroad has been building a gigantic power house at Long Island City, which will be ready for use early next spring. It is one of the largest houses of its kind ever built. The electric system for the short-haul service will be third rail.

Service to Cleveland. Lima, O., Oct. 7.—It is semi-officially announced here that the Lake Erie and Western in the near future will start through service over its line between Peoria, Ill., and Cleveland, O. This will be accomplished through the Lake Shore connection at Sandusky, which is but four miles greater in mileage than any other Cleveland line in this territory. There has never been any direct entrance from this section to Cleveland, and trains running through to Cleveland will be an innovation and receive heavy patronage. The roadbed of the old Lake Erie & Western which under the Erie management was always designated as "two streaks of rust and a right of way," has been brought up to what is known as the "Lake Shore Standard," and fast time can now safely be made over the entire system. With the inauguration of this service a handsome new train throughout will be built especially therefor.

MILLION DOLLAR SIGN. Index of the Times Seen in Big Pennsylvania Car Order. Orders just issued for the construction of passenger and freight equipment to the amount of a million dollars for the Pennsylvania system is regarded as a significant sign of improved business conditions. Many new passenger coaches of the latest and most improved design are to be built by the Pennsylvania at its Altoona, Philadelphia, Wilmington and Meadows (N. J.) shops. The company has contracted with pressed steel car manufacturers of the Pittsburgh district to construct 600 doublehopper cars costing \$1,000 each, and requiring 6,000 tons of steel plates. This additional equipment is to meet the urgent demand for more cars to haul coal. A considerable number of locomotives of the largest type have also been ordered, and bids are under consideration for hundreds of coke cars. The great stroke of engineering by which the immense volume of through freight east and west follows the new short route at Brilliant cut-off instead of congesting traffic at Pittsburg, is a most important feature viewed in the annual inspection of the Pennsylvania lines by company officials.

Track Inspection. The annual track inspection of the Pennsylvania lines which usually starts from Pittsburg, will start from Columbus this year. The date will be October 18. Three special trains will assemble here and the start will be made at 6:30 a. m. The route will be to Chicago via Richmond and Logansport and the return will be made over the Fort Wayne. The party will consist of the general manager and his staff, the general superintendents and their staffs and all superintendents, engineers of maintenance of way and road supervisors the usual prices will be for the best pieces of track.

Railway Personnel. W. H. Higgs, a well known B. & O. passenger fireman has been given a leave of absence and is visiting relatives in Peoria, Ill.

Brakeman F. E. Hummel, who has been laying off for a few days, has returned to work.

Conductor J. B. Crozier who has been off duty for some time, is back on his caboose again.

Brakeman John Robinson has been granted leave of absence for a few days.

Brakeman D. M. Hukill and W. A. Nethers have returned to work.

Brakemen J. D. Kinney and M. Jew-

ell are off on leave of absence.

John Riley of Columbus a former well known B. & O. engineer is visiting in the city.

Brakeman G. C. Harter has been marked up as extra man on the Lake Erie division.

After having been off duty for a few days, Brakeman W. A. Deck has been marked up for service.

Brakeman Swan is working again after having been off duty for a few trips. Pan Handle train No. 3 had two observation cars for Chicago on Wednesday night.

Brakeman E. V. Shryock has been marked up for service after a short absence.

This is Registration Week at the Y. M. C. A. night school.

Police Court

Notwithstanding the fact that an unusually large number of persons were in the city on Thursday and Thursday night the crowd was very orderly and in the police court this morning there was a very light state, only three minor cases coming up for hearing.

A man named Spencer, an old timer of Fredonia, was fined \$5 and costs. The police, however, think they have a case of stealing against him.

Two young men claiming to hail from Utica, were picked up on the street in a state of intoxication. This morning they were given the costs and told to go and sin no more.

People Demand Meters.

It is claimed the gas company will put in no meters this year, but, instead offer a flat rate to consumers. They cannot, under their franchise, force a flat rate upon the public, and the sooner they realize that we have coal to burn, the better it will be for all concerned. The prospective consumers of gas in Pataskala have, in almost every instance, dropped negotiations for plumbing work, and, according to the present situation of things it looks as though a conservative flat rate must be forthcoming or there will be no gas burned here this winter.—Pataskala Standard

NEWARK MAN ELECTED GRAND HIGH PRIEST.

Increase in Membership—Next Meeting at Springfield, O.—Masonic Home Report

Columbus, O., Oct. 7.—The 88th convocation of the grand chapter of the Royal Arch Masons, before adjournment, voted \$7,500 to the Masonic home at Springfield, and granted charters for chapters at Cincinnati and Shelby. The next session will be held in Springfield, October 1 and 5.

The principal business during the day was the election of officers headed by Lewis P. Schaus, as grand high priest, chosen to succeed Owen E. Hannan, of Cleveland, whose term expired with the closing of the convention. The complete list of officers is:

Lewis P. Schaus, Newark, grand high priest; Wm. A. Reiter, Miamisburg, deputy grand high priest; Wm. T. McLean, Sidney, grand king; Lewis M. Lea, Sandusky, grand scribe; Robert V. Hampton, Salem, grand treasurer; Edwin Hagenbuch, Urbana, grand secretary; Rev. Frank C. Mitceni, Hartwell, grand chaplain; David C. Winegarner, Newark, grand R. A. Captain; Edward H. Archer, Columbus, grand captain host; Frank Crumit, Jackson, principal sojourner; Joseph Kukup, Cincinnati, grand R. A. captain; Thos. H. Isitt, Cleveland, grand master third veil; W. E. Evans, Chillicothe, grand master second veil; Thos. H. Crane, Garrettsville, grand master first veil; W. B. Schuster, Springfield, grand steward; George W. Fels, Cincinnati, grand guard.

Wednesday evening the Royal Arch degree was exemplified in the Scottish Rite hall at the temple before a large number of visitors. Three candidates were given the work. Two were from Temple Chapter and the other from Ohio Chapter. The work was done by the grand lodge officers with the exception of Principal Sojourner.

The report of the Masonic home at Springfield shows membership of 147, of whom 61 are men, of an average age of 73 years; 76 women, averaging 72 years, and 26 boys of an average age of 12 years.

The receipts for the year were \$150,606.28; expenditures, \$33,228.45, leaving a total of \$117,377.83, of which \$29,515.04 belongs to the endowment fund.

The Advocate offers 136 premiums, amounting to \$500 for the best estimates on the total vote in Licking county at the coming November election.

STRUCK BY TRAIN

Michael Mikey, a Slav, Who Has Been Employed as a Section Hand Instantly Killed in West Newark Friday Morning.

Michael Mikey, a Slav aged about 30 years, who has been employed by the B. & O. railroad company as section man for some time, was instantly killed on Friday morning about 1:15 o'clock.

For some time Mikey has been working for Section Boss George Burd, and Friday morning was engaged with a number of others at work just east of the railroad bridge in the West End. A west bound freight train was just pulling out of the city when Mikey stepped out of the road to the other track, directly in front of an east bound Pan Handle freight train. Before he had time to even think of his danger the big engine struck him and he was hurled down the steep embankment at that place and death was almost instantaneous.

DEAD MAN

May be Felix Stenile, Jr. of Columbus Grove.—The Man Was Killed on Saturday Night.

A telegram from Columbus Grove states that the man who was killed near Black Lick, Saturday night on the Pan Handle railroad, is supposed to be Felix Stenile, Jr., whose father lives at Columbus Grove.

Coroner Murphy of Franklin county has heard nothing from the authorities there and he will send a picture to the father to see if he can identify the man as his son. Pictures were taken at the morgue.

Chief O'Connor sent a picture to Stenile at Delphos, which city was mentioned on a beer keg tag found in the pocket of the dead man.

Owing to the fact that the man's body was terribly mutilated it was buried Monday.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

LADDER

Slipped and John M. Beem of Summit Station, Fell to the Ground and Was Badly Hurt.

Summit Station, O., Oct. 7.—John M. Beem, a well known resident of this place, met with a very painful accident on Thursday. He was standing on a ladder about ten feet from the ground, engaged in painting a house, when the ladder slipped and he was precipitated to the ground. One of his feet was very badly crushed and he was otherwise injured. Dr. C. D. Watkins of Mt. A. was called and attended to the injured member, but it will be some time before he will be able to use it.

Frank Evans and brother, Louis, and Mrs. F. M. Morrison left Thursday for St. Louis, where they will attend the World's Fair.

TEN MEN KILLED

Antwerp, Oct. 7.—While some soldiers were firing a large shell at St. Mary's fortress today, the powder exploded and an officer and ten men were instantly killed. Several of the others were injured.

The bankers who last spring purchased large blocks of Cuban warrants are said to have cleared nearly \$3,000,000 through the Government's paying off its war liabilities. The claims were bought up at less than 50 cents on the dollar.

NATURAL GAS

WAS IGNITED IN STREET BY AN ELECTRIC ARC LAMP.

Fire Department Could Not Extinguish the Blaze Until After the Gas Was Shut Off

Residents in the vicinity of First and Locust streets were given a free exhibition about a clock Thursday evening.

The natural gas main at that corner had sprung a leak inside lately under the street and when the municipal light plant was put in operation the escaping gas ignited by the electric current and formed a line of fire extending from the ground to a point far above the suspended electric lamp.

The central fire department was called out to extinguish the fire but the blaze could not be put out until the gas had been shut off. The hole in the gas pipe was then plugged.

No special damage was done except to destroy the arc lamp.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

RANSOM-RICKETTS.

Mr. Charles E. Ransom of this city, and Miss Laura Ricketts of Columbus, were united in marriage Thursday evening at 8 o'clock by Rev. D. M. Gay at his residence, 210 Buckingham street. The happy couple were attended by Mr. Black and Miss Louise Henry.

The G-er has a brother, an uncle, four first cousins, ten second cousins, 13 third cousins and a great uncle. The first and second cousins are allowed to use the title "imperial highness."

Pennant Winners Given Benefit.
New York, Oct. 7.—The New York National league pennant winners were given a benefit at the polo grounds, which was fairly well attended. There was an attractive program of baseball, athletics, wrestling and pugilistic events.

No Post-Season Games.
New York, Oct. 7.—There will be no post-season series of games played this year between the pennant-winning teams of the National and American leagues. Manager John J. McGraw of the New York National league team said very emphatically that he would not play a post-season series.

Auto Record Broken.
New York, Oct. 7.—Tired, but happy in the knowledge that they had broken the record between Chicago and New York by nearly 14 hours, Bert Holcomb and Harry Sandell whizzed up to a garage in Thirty-ninth street, near Broadway, in a 35-horsepower automobile. The record-breakers left Chicago at 2 o'clock on Tuesday after-noon. The run was made in 58 hours and 45 minutes elapsed time and 51 hours and 5 minutes corrected time, exactly 13 hours and 38 minutes clipped from the best previous record.

Did Not Lower Record.
Springfield, Ill., Oct. 7.—Dan Patch, champion pacer of the world, failed in an attempt to lower his record of 1:56 1/4 at the Illinois state fair. He covered the mile in 2:04 without a skip. His time by quarters was as follows: .31 1/4, 1:02 1/4, 1:32 3/4, 2:04.

ON LINGAFELTER BOND.

Suit Commenced by Receiver Stasel Against George Miller—Four Divorce Suits Filed and One Divorce Granted—Court News.

In the case of Albert A. Stasel, as receiver of the Newark Savings Bank company against George Miller and Wm. C. Miller. The plaintiff says that on March 15, 1899, James F. Lingafelter was appointed as cashier of the Newark Savings Bank company, and in order to qualify himself for such position, George Miller and other persons, as sureties, on the 19th of April, 1899, executed to the Newark Savings Bank company their written obligation and bond, by which all of the signers obligated themselves in the amount of \$75,000.

The plaintiff claims that the condition of the bond has been broken, in that James F. Lingafelter drew from said company and converted to his own use from time to time prior to June 3, 1904, money and property belonging to the bank to the amount of \$67,000, and he has wholly failed to account for the same or any part thereof, and that there is now due the Newark Savings Bank company from James F. Lingafelter and from George Miller, as his surety, the sum of \$67,000.

The plaintiff claims that prior to June 6, 1904 George Miller was the owner of certain property, described by the plaintiff, located in Licking county; that on the 6th of June, 1904, their was filed with the county recorder a warranty deed conveying the property described from George Miller and Nellie Miller, his wife, to Wm. C. Miller, a son of George Miller, which deed purported to be for the consideration of \$8,000, and was made subject to a mortgage for \$1,500, given by George Miller to John Goldsmith, dated June 2, 1903. Which mortgage has since been satisfied and released.

Plaintiff says there was no consideration for said deed, and that it was made after it became known that George Miller would be liable on the bond, and for the purpose and with the intent on the part of George Miller and Wm. C. Miller of hindering, delaying and defrauding the plaintiff as a creditor of George Miller, and of putting the property of George Miller beyond the reach of the plaintiff as his creditor.

Plaintiff asks that the deed be set aside and held for naught, and that such other proceeding be had as will result in the application of the said real estate to the payment of the claim of the plaintiff against George Miller. A. A. Stasel, attorney for plaintiff.

Wants Partnership Dissolved.
Mattie J. Coghlin, by her attorneys, Smythe & Smythe, has filed a petition in the common pleas court asking that the partnership, heretofore existing between her and Mary B. Buxton and Noah Buxton, in the plumbing business in Newark, be dissolved. The plaintiff says she furnished \$600 to purchase a stock of goods and plumbing tools for the purpose of engaging in business and that it was agreed that Noah Buxton do all the work to carry on the business. The plaintiff says the defendants have converted the money arising from said business, about \$125 per week, to their own use, and that they refuse to make an accounting, and that both declare their purpose to collect all the claims owing to the business and to dispose of the same, and all the stock, property, etc., for their own benefit. Plaintiff therefore asks that the partnership be dissolved, and that an account be rendered; that a receiver be appointed and that the defendants be required to pay their indebtedness to said partnership. Plaintiff also asks that Noah Buxton be enjoined from selling any of the stock or property and from collecting any of the claims owing to the partnership.

A Divorce Granted.
In the case of Catherine F. Hartsough vs. Joseph S. Hartsough, the court this morning granted plaintiff a decree of divorce from defendant. Hunter & Hunter.

Dividend to Be Paid.
J. A. Chilcote vs. Newark, Ohio, Publishing company, the receiver, Carl Norpell, was this morning given authority to pay a final dividend of 17 per cent to the general creditors. This makes a dividend of 93 per cent that has been paid on the face of the claims and interest. The action was brought to dissolve the corporation and wind up its affairs, and for which purpose Mr. Norpell was appointed receiver. The creditors thus receive practically the full amount of the face of their claims. Kibler & Kibler Norpell, Stasel, King, Black.

Prays for Divorce.
Samuel F. Linn has commenced suit in the Probate court for divorce from her husband, Mary M. Linn, on the grounds of wilful absence. The parties were married June 8, 1898, and one child, Helen A. Linn, aged 5 years, was born of said marriage. J. V. Hilliard is attorney for the plaintiff.

Wants a Divorce.
Blanche Bowman has filed a petition in the Probate court asking for a divorce from her husband, Edward L. Bowman, and also alimony. The parties were married August 26, 1902, and

no children were born. The defendant is charged with infidelity.

Divorce Suit Filed.
Nellie V. Green has commenced suit in the Probate court against her husband, Vatchell M. Green, for divorce. The parties were married August 29, 1899, and one son, Ned C. Green, was born of the union. The plaintiff charges extreme cruelty in striking her and pointing a revolver at her and threatening to shoot her, and causing her to leave him. Plaintiff asks for a divorce and the custody of the child. Kibler & Kibler represent the plaintiff.

Here is Another.
Willis Vadagan wants a divorce from his wife, Ota Vadagan, whom he married in 1895 at Kirkersville. He charges her with wilful absence.

Court House Notes.
In the case of Carl Norpell as executor of the will of Elizabeth M. Etner vs. Effie House and others, the plaintiff has filed a petition to set aside.

The Mechanics Building and Loan company has commenced suit in the Probate court against Mabel Paxton and Frederick Paxton and Sarah Orr and J. H. Orr to foreclose a mortgage for \$1753.64. J. V. Hilliard, attorney. The Mechanics Building and Loan company has commenced suit in the Probate court against Ida E. Smith and L. A. Smith to foreclose a mortgage for \$2153.47.

TRACK SLOW

THERE WERE SEVERAL CLOSE FINISHES.

Frank L. Won the 119 Pace, Angie G. the 130 Trot, and Brassie Butler the 135 Pace.

The Licking County Fair races on Thursday were decided on a track that was several seconds slow on account of the heavy rain of Wednesday. The stretch was nearly felloek deep in mud so that no sensational time was made, but there were several close finishes.

The 2:19 pace developed into the best race, requiring six heats to decide it. In the second heat of the 2:20 trot Virginia West was set back one position for running.

In the half mile run, best two in three, Robert T and Lone Star each won a heat and the race was decided at 12 o'clock Friday.

REMEMBER—You can subscribe for The Daily Advocate for as many weeks in advance as you wish and receive a guess for every 50 cents paid, or for The Semi-Weekly Advocate and receive two guesses for every year paid in advance, or one guess on every six months' subscription paid in advance.

If you are not already a subscriber to The Advocate, Newark's most enterprising and up-to-date paper, send in your name and 50 cents for a trial subscription of five weeks, and which will entitle you to one guess. If you are already a subscriber, send the paper to a friend for five weeks and receive one guess.

The award will be made by an impartial committee as soon as possible after the official vote is announced by the Board of Elections.

All estimates must be in The Advocate office before 6 o'clock p. m. on November 8th. All letters containing remittances postmarked before 6 p. m. November 8th, will be received and counted.

Make your estimates at once. Make as many estimates as you desire, the only condition being that each shall be accompanied by five weeks' subscription to The Daily Advocate or six months' subscription to The Semi-Weekly Advocate.

DREAD OF HUMANITY

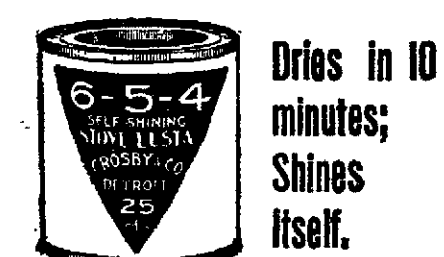

I am compelled by a sense of gratitude to tell you the great good your remedy has done me in a case of Contagious Blood Poison. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus. I lost in weight, was run down, had sore throat, eruptions, spots, and other evidences of the disease. I was truly in a bad shape when I began the use of S. S. S., but the persistent use of it brought me out of my trouble safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all blood-poison sufferers, sincerely believing if it is taken according to directions, and given a fair trial, it will thoroughly eliminate every particle of the virus. JAMES CURRAN, Stark Hotel, Greensburg, Pa.

Painful swellings in the groins, red eruptions upon the skin, sores in the mouth and loss of hair and eyebrows, are some of the symptoms of this vile disease. S. S. S. is an antidote for the awful virus that attacks and destroys even the bones. S. S. S. contains no Mercury, Potash or other mineral ingredient. We offer \$1.00 for proof that it is not absolutely vegetable. Home treatment book giving the symptoms and other interesting and valuable information about this disease, mailed free. Our physicians advise free those who write us.

WINDOW GLASS

Factory in Utica Working With a Full Force and Brilliant Prospects.

The Utica Window Glass company started operations Saturday morning, October 1, with a full force and brilliant prospects. Last season they did not start till late in the winter, and then were obliged to stop at times on account of the flattening ovens being insufficient. In spite of this working but little more than half the season, they paid dividend of fifteen per cent on the stock, besides setting aside ample working capital. Now they have an additional year, increasing the flattening capacity of fifty per cent, and are in shape to make a record. Secretary Taggart's salary has been increased in appreciation of his excellent service. A new office building has been erected, and it is an architectural beauty, its handsome design worked in cement blocks or artificial stone. It will be given an artistic tile roof—Utica Herald.

FLASHED

A Revolver and Demanded Money of Bank Officials—Unbalanced Man Arrested After Hard Fight.

Washington, C. H., Oct. 7.—Last evening shortly before closing hours a stranger entered the Fayette county bank, and just as Cashier Worthington was passing out the bank door the stranger demanded money.

Mr. Worthington declined to comply and the man advanced to the cashier's window and asked for money from Teller R. F. White, at the same time exhibiting a revolver. The fellow was told that he could have no money and the police were called. The stranger walked out and was met on the outside by Fireman Lem Mayo and Mack Blomer, who attempted to arrest him.

A terrific fight ensued in which Mayo's thumb was almost bitten off. It took four men to subdue the man and land him behind the bars. He was learned that his name is Morgan. He works near Jeffersonville. It is supposed that his mind is unbalanced. The affair created much excitement on the streets.

BUMPED HEAD

To Increase His Height So Recruiting Officer Would Accept Him—Johnson is Clever.

Muncie, Ind., Oct. 7.—Wm. Johnson, aged 21, of Delaware county is a very clever young man. All his life he has had an ambition to get into the army and "wear the blue." Having just attained his 21st birthday he obtained his father's consent and hastened to the recruiting office in this city.

Officer E. E. Cummings examined the young man and found him in splendid condition physically, but he was a fraction of an inch too short. Young Johnson went away. Late in the afternoon he returned and asked Officer Cummings to "just measure him again."

The officer measured his height and to his great surprise found that the applicant measured full 5 feet 6 inches, the height required for recruits in the field artillery service, which Johnson desired to enter. Again the officer measured, and it was the same.

Then he chanced to feel on Johnson's head. There was a peculiar knot or bump, which could plainly be felt. The disappointed young man finally confessed that he had bumped his head to increase his height.

AMUSEMENTS

The Murray comedy company, which has been playing all week at the Auditorium, giving good satisfaction, as usual, will present "The Resurrection" tonight and "Old Glory" tomorrow night.

THE RUBE BAND.
There are many imitators of Mr. J. C. Lewis' novel and unique method of heralding the advent of the St. Plunkard Co. in each city he appears. He presents the only and original Country Band parade, which is well worth going miles to see. This novel street parade will be seen here Monday noon, October 10. No doubt you have seen imitations of this parade, but see the original now. While we are flattered by imitators, we do not wish to be classed with these imitators of our success.

"THE RAVEN."

Not in several years has there been put forth a play that has caused the stir created by George C. Hazelton's new play, "The Raven," which is none other than the love story of Edgar Allan Poe. "The Raven" is said to be written in Mr. Hazelton's best vein and outranks his "Miss Nell" as a literary effort. There are lines in "The Raven" which will be seen at the Auditorium next Wednesday night that are sure to be quoted throughout the world for some time to come. Mr. Hazelton's "Miss Nell" made a tremendous success, but even this seems sure to be overshadowed by his play, "The Raven." While the title of "The Raven" has been chosen for this play of Edgar Allan Poe, Poe's poem of "The Raven" has nothing to do with the play, and the title was chosen simply to give distinction and identity to the work. The character of Edgar Allan Poe will be played by Frederick Lewis, who is especially suited to the part and who made a great success in "Ghosts" in New York a year ago. The play has been staged by Henrietta Crossman and is under the management of Maurice Campbell, so that will these well known persons vouching for success, an exceptional entertainment will probably be offered. There is no doubt that Edgar Allan Poe is one of the greatest favorites of English speaking poets. The cast presenting "The Raven" is aptly chosen, and the production is worthy of the greatest patronage. Price 25, 50, 75 cents and \$1. Seats on sale Tuesday.

THEATRE GOERS NOTICE.

After October 6 no children under 10 years of age will be admitted into the Auditorium unless they hold a children's ticket, which can be purchased at the box office. Children over ten years of age must be provided with reserved seat tickets. Children in arms will positively not be admitted to the Auditorium. 19-6-3t

TO WEAK WOMEN

OF NEWARK AND VICINITY

We Make the Following Proposition.

"There are hundreds of women in this vicinity who are dragging themselves through life in pain and misery, without vitality, strength or health," said Mr. Hall. "They get no happiness out of life and are just in a condition to be attacked by almost any disease. They need a vitality-making and strength-creating tonic."

"Now, at our expense, we want to ask every such woman to try our cod liver oil preparation, Vinol, which contains in a highly concentrated form all of the medicinal elements of cod liver oil, but no oil or grease. It is delicious to take, creates a healthy appetite, makes rich red blood and gives strength and vigor to every organ of the body better than any medicine we have ever sold in our store, and when a woman is in this condition it makes life worth living. When we say 'at our expense' we mean that if the medicine you buy from us and pay for does not benefit you—we will refund every cent of it cheerfully, and thus you try it at our expense."

Miss Mary A. Woodard of Indianapolis, Ind., writes: "I think Vinol is the best remedy in the world for a weak, tired, worn-out system. I was just in that condition when I commenced to take Vinol. It gave me new life and energy, and after using three bottles I felt like a different woman. I feel well and strong and better than I have for years. I believe Vinol will do much more than is claimed for it."

I can only ask Newark women to try Vinol on our guarantee. Frank D. Hall, Druggist.

GRANVILLE NOTES.

Granville, O., Oct. 7.—Miss Isabel Sherwood of New York, is the guest of Miss Stella Case of this place.

AN EQUINE HERO

Fire Horse Sacrificed His Life in the Line of Duty—Valuable Property Saved.

New York, Oct. 7.—The stock market and the corn squeeze were not the only topics of conversation in Wall street yesterday. Dan, the fire horse at West Orange, N. J., divided attention with weighty financial matters, for many of the active men in Wall street live in the West Orange district, and Dan gave his life to save their homes from destruction. With his side partner, Major, Dan responded yesterday to a call for a blaze which threatened to devour the residence section. While nearly a half mile from the scene of the fire Dan stepped on a loose stone, stumbled, struggled to his feet and went on his way, dragging the heavy machine to the scene of the fire. When he arrived there it was found that one of Dan's legs was broken beyond all hope of mending, and the gallant animal had to be shot.

The Wall street men whose property was saved by his gallant action are talking of raising a monument to Dan.

AN INGREDIENT

Of Chop Suey Causes the Pittsburg Humane Society to Take Action Against the Chinese.

Pittsburg, Pa., Oct. 7.—The after taste in the mouths of youthful aristocrats and elderly sports of Pittsburg when leaving the boards of Chinese lunchrooms has been explained by Edward W. Thompson, humane agent. Mr. Thompson said:

"We learned that several proprietors of the finest Chinese restaurants in the city have been using meat unfamiliar to the Occidental as a food. We are after the Chinamen and the Chinamen are after the cats."

The statement that chop suey hereafter will be composed only of legitimate food stuffs is regarded with apprehension by those who are in the habit of partaking occasionally of this dish. It is said that the tasteless qualities as well as the fascination of the dish would be destroyed should the mystery of its composition be removed. Several Chinese restaurant keepers on Second avenue denied that they are responsible for the disappearance of kittens.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, an much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about it in preference to any other. It is for sale by all druggists.

MILLION

Dropped by the Clique in an Attempt to Corner the Corn Market on 'Change.

Chicago, Oct. 7.—Wall street has failed in its attempt to control the corn market. Losses as the result of this failure aggregate \$1,000,000.

James J. Hill, James R. Keene and the others interested in the attempt, are holding long May and December corn to the extent of 20,000,000 bushels. They have, it is estimated, lost a bushel on the average and the holdings are growing worse every day, because crop reports show conditions are much better than supposed. Watson & Co., of Minneapolis, are in the deal also.

Their estimate of the corn crop, based on early first predictions, was 1,575,000,000 bushels. Reports now indicate the crop will be 2,000,000,000 bushels.

On the Chicago Board of Trade, Knight, Donnelly & Co., Pringle, Fitch and Rankin, J. H. Wrenn & Co. and Seckel and Roberts are supposed to represent Wall street and the Northwest. They have been doing the buying for the plungers, who thought they had things their own way until the reports came in that the early first had not damaged the corn crop appreciably.

According to all reports they must take the losses without any chance to recover. There is little demand for export corn. The local demand is not great.

The Cincinnati Price Current, one of the authorities on crop reports, gave 2,400,000,000 bushels as its estimate of the crop.

WEDDINGS.

RYAN CADDY.
The Brooklyn, N. Y., Eagle in a recent issue published a splendid double column picture of Miss Belle Elizabeth Caddy, daughter of Dr. and Mrs. Edward E. Caddy, who is to be married on Saturday, October 8, at Goshen, N. Y. The Eagle speaks of Miss Caddy as the "most beautiful bride of the fall," and adds:

"Another wedding has been added to the October schedule and this a country bride, that of Miss Belle Elizabeth Caddy. Miss Caddy is the daughter of Dr. and Mrs. Edward Everett Caddy, who were formerly of the Park Slope, but now have their permanent home three or four miles from Goshen, N. Y. Bonny View Farm is its name. Miss Caddy is to become the bride of Frederick Behrens Ryan, of Manhattan. She is called the most beautiful bride of the fall, a tall picture like girl of the Howard Chandler Christy type.

"This wedding has been arranged for Saturday. It will take place at noon its scene being the Episcopal church of St. James at Goshen, an extremely attractive edifice. A very faintly devised bridal has been planned and quite a large party will go up to it by special train, men and girls from both Brooklyn and Manhattan. This train is to leave New York at 9 o'clock. Since Bonny View Farm is so far away from the church the breakfast following the ceremony is not to take place there, but in a house directly opposite the church, in the town of Goshen itself, a large country house of spacious parlors that the Caddys have engaged for this special purpose—St. James Place."

"Miss Caddy's wedding will be a chrysanthemum bridal, with the tone of its costume effect green. The maids attending this bride will be: Miss Helen Bourne of Cranford, N. J., maid of honor; Miss Katherine Journey and Miss Florence Mallory of Brooklyn; Miss Katherine Wisner of Goshen, N. Y., and Miss Elizabeth Rittenhouse, of Washington, N. C., bridesmaids; Van Zandt Janeway, of Bergen Point, N. J.; Charles Ryan, Mr. Ryan's brother will be best man, and there will be four ushers."

Mrs. Caddy mother of the bride, was formerly Miss Mabel Dean, daughter of Mr. and Mrs. Charles M. Dean who a few years ago lived at the corner of Fifth and Locust streets, this city.

EVIDENCE

Been Secured by Police to Destroy the Alphas Which Prisoners Try to Set Up.

Cincinnati, C., Oct. 7.—Link after Link is being added to the chain of evidence which the police are forming in an effort to destroy the alphas of Theodore Salmon, the expressman and William Wilson, the painter, have attempted to set up relative to their movements on the night that Louise Mueller was killed.

One of the chief features of the day's proceedings was the arrest last evening of Lily Key and Stella Pierce who were with Salmon and Wilson on the night of the murder. The police are of the opinion that they know more about the case than they have told. After they had been closely questioned at headquarters they were locked up in separate cells. They are held in suspicion. The prisoners are in their own cells. The prisoners are in their own cells. The prisoners are in their own cells.

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months. I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich.

FREE MEDICAL ADVICE TO YOUNG GIRLS.

All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham believes that our girls are often pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries. Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honors; often physical collapse follows, and it takes years to recover the lost vitality,—often it is never recovered.

A Young Chicago Girl Saved from Despair.

"DEAR MRS. PINKHAM:—I wish to thank you for the help and benefit I have received through the use of Lydia E. Pinkham's Vegetable Compound and Liver Pills. When I was about seventeen years old I suddenly seemed to lose my usual good health and vitality. Father said I studied too hard, but the doctor thought different and prescribed tonics, which I took by the quart without relief. Reading one day in the paper of Mrs. Pinkham's great cures, and finding the symptoms described answered mine, I decided I would give Lydia E. Pinkham's Vegetable Compound a trial. I did not say a word to the doctor; I bought it myself, and took it according to directions regularly for two months, and I found that I gradually improved, and that all pains left me, and I was my old self once more."—LILLIE E. SINCLAIR, 17 E. 22d St., Chicago III."

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

NEWS OF STATE AND NEIGHBORHOOD

Youngstown Man's Awful Work.
Youngstown, O., Oct. 7.—John Dulovich after drinking three bottles of whisky and five buckets of beer last night, seized a hatchet and fatally cut his wife, named his son, John, aged 11, and chased his daughter, Annie, from the house. This morning was the first the neighbors knew of the tragedy when they found Dulovich with his throat cut, dead, in the midst of his blood stained home.

A Young Girl's Suicide.
Columbus, O., Oct. 7.—Miss Anna Lee, aged 17, of Vinton, this county, committed suicide yesterday by drinking carbolic acid. She was found in a dying condition on the grass by the driver of a bread wagon and died shortly after. No cause can be ascertained. She attempted to take her life a year ago, but failed.

Coshocton's Fire Department.
Coshocton, Oct. 7.—It seems highly probable that Coshocton will soon have a modern fire department, including fire alarm boxes distributed about the city, from which alarms can be sent to the central station announcing the fire and giving its location. The board of public safety consisting of Dr. McClam, P. P. DeHart and B. L. Shaw, has endorsed the plan.

Says It Is Blackmail.
Cambridge, O., Oct. 7.—Word has been received in this city from Arthur J. Bennett, president of the Cambridge Glass works, who is now in Chicago on business, stating in regard to the \$20,000 breach of promise suit brought by Lillian Bauer of New York city that the case is an attempt at blackmail, and will be prosecuted as such.

In Supreme Court.
Cincinnati, O., Oct. 7.—The case of Moody Wamsley against the state was argued on its merits in the Supreme court yesterday. Wamsley was convicted of manslaughter on an indictment for murder in the second degree, in Brown county. The trial judge died and the judge appointed to the vacancy, through a technicality, refused to admit the prisoner to bail pending a hearing. The attorneys for the defense argued irregularities of the prosecutor and the general proceedings, and brought in a plea of self defense. It is probable the court will render its decision on the merits next Tuesday.

Women Arrested.
Cincinnati, O., Oct. 7.—Two more arrests were made in connection with the murder of Louise Mueller, whose body was found in what is known as "Lover's Lane" in the western part of this city, last Saturday. Stella Pearce and Lillian Keys, whose names have been mentioned in connection with the investigation of the murder, were locked up on suspicion. The arrest of the two women was caused by a statement of Valentine Wolf, a streetcar conductor. Wolf said that the women boarded his car on the night of the murder, near the place where the body was found, two hours later than any time set by others in discussing the murder. It was the apparent discrepancy in time which caused the arrest of the women.

Stockholders Given a Chance.
Akron, O., Oct. 7.—O. C. Barber, who purchased the plants and property of the United Salt company in Cleveland for \$105,000, has announced that the stockholders of the company will be given an opportunity to acquire the plants and property of the company on the same advantageous basis that he made the purchase. If the stockholders are not willing to do this Mr. Barber and Frank Rockefeller will rehabilitate the plants in Cleveland and run them under new management. The real estate alone on which the plants are located is estimated to be worth at least \$150,000.

Petition in Bankruptcy.
Cincinnati, O., Oct. 7.—A petition in bankruptcy against the Ironton Door and Manufacturing company, of which Edmond S. Culbertson is receiver under appointment of the state courts, was filed in the United States court. It is charged that an attempt was made to make the First and Second National banks of Ironton, O., preferred creditors.

Labor Federation Adjourns.
Canton, O., Oct. 7.—The three days' convention of the State Federation of Labor ended last evening. Fred Zepp of Cleveland was elected president. The next convention will be held in Cincinnati. The proposal to send a delegate to the national convention at San Francisco was voted negatively.

Strike at Lima.
Lima, O., Oct. 7.—One hundred workmen of the new waterworks reservoir went on strike for higher pay.

Killed by a B. & O. Freight.
Tiffin, O., Oct. 7.—A man supposed to be Thomas Burk of Chicago Junction, was struck by a B. & O. freight train here last night and instantly killed.

Gilmore Arrested.
Waverly, O., Oct. 7.—Francis Gilmore who recently escaped from the Mansfield Reformatory, was recaptured by local officers after a fierce struggle.

Killed by Cars.
Lancaster, O., Oct. 7.—John P. Young, a brakeman, residing in this city, fell under his train and was ground to pieces yesterday afternoon.

State Board of Health.
Columbus, O., Oct. 7.—The State Board of Health will meet in Cincinnati October 12, in annual session. Because of his seniority Dr. Frank Warner, of this city, will be made president. Dr. Miller will step aside and allow Dr. Warner to be chosen. The regular annual meeting is usually held in January, but Dr. Miller's term expires December 12, and he is not sure of holding over.

Funeral Followed by Wedding.
Zanesville, O., Oct. 7.—The funeral of James A. Cox, late Auditor of the Ohio river and Western Railway was held yesterday afternoon from the late residence and last night at 8 o'clock the son of the deceased, his private secretary, Charles A. Cox, was married to Miss Margaret Stultz. The invitations to the nuptials, which was to have been in the nature of a small society event, were withdrawn soon after Mr. Cox became ill, but one of his last requests was that in the event of his death the wedding should not be delayed.

Married at Coshocton.
Coshocton, O., Oct. 7.—Last evening Harry D. Sprowles of Philadelphia, and Margaret, daughter of Mr. and Mrs. L. Bentley Pope, were married here.

Searching for Mother.

GAS FIELD

GENERAL NEWS OF THE LOCAL TERRITORY.

What is Being Done by the Companies Operating in Licking-Knox Field.

The Utica Herald has compiled the following notes of the week from the local natural gas field:

The Ohio Union company is figuring on piping gas to Milledgeburg from the wells near Danville.

Dick Harriman got his left foot severely mashed Tuesday by a drill stem falling upon it while loading at the Campbell well.

The string of tools used at Campbell No. 3 was hauled two miles further north, Tuesday, to the Robinson lease for a test.

A test well was drilled in Knox township, Holmes county, a few miles northeast of the Greersville oil well, but it proved to be a duster.

Ochandler & Schrier have brought in another three and a half million well on the Ross lease of the Wright-Levering company, northeast of here, and will start another hole on the same farm. They will also drill on the Pipes lease soon.

Morey went 7 miles northeast, Monday, to shoot the Waite-Levering well drilled in by Chandler & Schrier on the Green lease. The well is a failure from a gas standpoint, but there is so great a showing of oil that it will be allowed to stand a few days before a decision is made as to what to do with it.

Kinsey drilled in on the Alltop Heisey and got three millions. A fishing job was encountered in the McCarty well in that vicinity, and the derrick at the Hanby well had to be shifted. The Logan, the Ohio Fuel Supply, Heisey and Smith are all getting busy down there.

Gus Bailey met with a severe accident while at work on one of Kinsey's wells Monday. He was driving pipe, when he was struck on the forehead by a nut from a drive clamp bolt, and knocked down. He fell over a wrench, which hurt his neck worse than the nut injured his head. He is laid up, under the doctor's care.

At the Logan company's pumping station at Bangs a fly wheel which was being adjusted to the engine slipped from those who were handling it and fell on a man named Scott McLaughlin, injuring the upper portion of one of his legs, but he fortunately escaped without any bones being broken. He was laid up from work several days.

Kinsey drilled in a strong two million well for Everett on the George Shipp lease six miles southeast of here last Thursday night. There are two wells of competing companies within a few hundred yards of it, and seven other derricks now operating or recently finished are within sight. Pearl is drilling on the Pearson lease 19 rods distant.

Robert H. Bebout has commenced an action against the Homer Natural Gas Co. and the Logan Natural Gas Co., asking for injunction, accounting, and other relief. The plaintiff claims that there is due him on contract the total sum of \$14,504.48 and interest, for which he asks judgment. The petition is one of the lengthiest filed in a long time, giving details of contracts be-

tween the plaintiff and defendants concerning leases of 2,500 acres of land royalties to be paid to the plaintiff, etc. A temporary order was granted by Probate Judge Blair, restraining the Logan company from paying money to the Homer company pending trial of the suit.

COUNTY FAIR

ATTENDANCE FRIDAY ESTIMATED AT 15,000.

Crowd Began Arriving at the Old Fort Before Grass Was Dry and Kept Coming All Day.

All roads led to Newark Friday morning, and some parts of the county must have been nearly depopulated, because the spacious fair grounds were made to contain a crowd, the equal of which has not been attained for years.

People began pouring into the grounds before the dew was dry, and they kept on coming until well into the afternoon. Nearly 100 people came down on the T. & O. C. train Thursday night, and came to Newark from Granville, so as to be early on the grounds. Those in a position to know say that the attendance on Friday will not fall below fifteen or sixteen thousand and may go away above that figure.

The estimate of Thursday's attendance is said to have been too high. While the figures are not yet obtainable it is said the crowd numbered about 8,000.

For a good dinner stop at Ransom & Kirk's restaurant, 35 South Fifth street. Meals and lunch at all hours 10-7d11.

STABLE BURNS

William Koch's Barn Near Hebron Destroyed by Fire Friday Morning—Prof. Bebout Robbed.

Hebron, O., Oct. 7.—William Koch's stable was destroyed at his farm a mile east of town this morning. It is supposed that the barn was fired by tramps. The building had recently been filled with hay.

Prof. C. V. Eebout, superintendent of the public schools, had his pocket picked while attending the Licking county fair. Mr. Eebout, who says his loss is about \$7, thinks that his pocketbook was stolen as he was boarding the car in Newark.

Mr. Willis Stone, who has been quite sick at St. Louis, where he went to attend the World's Fair, has just returned home, his condition being much improved.

Post Office Robbed.

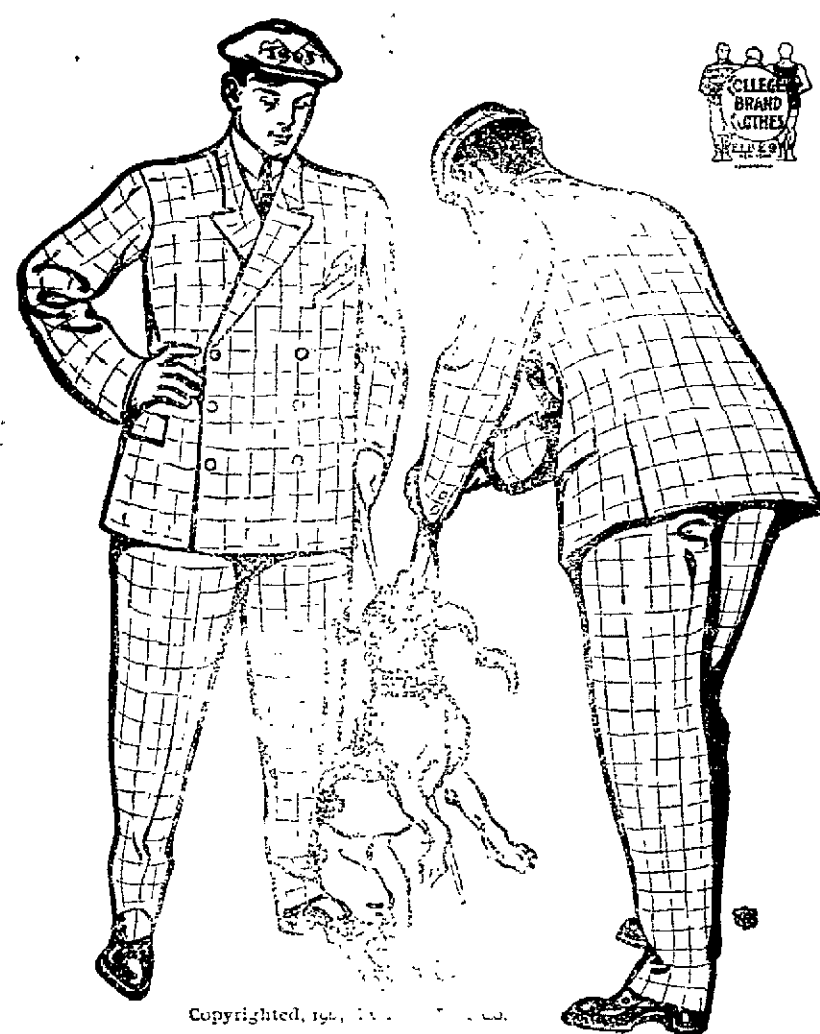

Berwyn, Pa., Oct. 7.—The safe in the postoffice here was blown open this morning. So great was the force of the explosion that a man sleeping in a room above the office, which is located in the railway station, was hurled from his bed. He telephoned for the police. The cracksman escaped. The exact amount of plunder taken cannot be learned now but it is believed to have been a large sum of money and stamps.
